

EIR1627 Data

Incident Date	Incident Type	Initial Incident	Description of Incident	Fire Cause	Fire Classification	Fire Start Location	Fire Main Cause	Fire Ignition Source
23/06/2023	Fire	FIRE IN THE OPEN - SMALL	This was a fire outside the front of the property that started in a planter next to the balcony/decking area. With other cigarette butts on the ground in the area of ignition and the burn patterns the Tier 1 suggests careless discarding of a cigarette that may have been smouldering for some time. Upon arrival the planter was 100% well alight and the fire had spread to adjoining balcony, hand rails and guttering above at roof level. Fire was quickly extinguished and a good amount of effort to identify any unknown hotspots was made to further any other damage to property.	Accidental	Primary	Other	Careless handling - due to careless disposal	Other
13/01/2023	Fire	FIRE DOMESTIC	Fire on first floor flat balcony, out on arrival.	Accidental	Primary	External fittings	Careless handling - due to careless disposal	Smoking materials
19/11/2022	Fire	FIRE RESIDENTIAL BUILDING	This was a small fire involving rubbish and cardboard on a small balcony. There were multiple discarded cigarettes on the balcony, and I believe this was the cause of the fire and the cause of fire spread was a cardboard box and Astro turf.	Accidental	Secondary	Other	None Listed	None Listed
11/08/2022	Fire	FIRE DOMESTIC	This was cooking left in oven and burnt. Occupant woken by alarm and removed food to balcony before leaving property. Neighbours assisted by isolating electrics, crews ventilated by opening windows, welfare check on occupant and handover.	Accidental	Primary	Kitchen	Cooking - other cooking	Cooking appliance - Cooker incl. oven
