

Fires caused by Lithium ion batteries attended by ECFRS - by type of device - 2019 to 2024 (till present day)			
Year	Device or Property involved (if stated)	Number of incidents	Number of incidents by year
2019	E cigarette power pack	1	3
	Lithium battery in rucksack	1	
	Not Stated	1	
2020	Not Stated	2	2
2021	Not Stated	2	3
	RC Car	1	
2022	dustcart	1	8
	E-Scooter	1	
	Ford Transit Van	1	
	Not Stated	5	
2023	Amazon Robot Hoover	2	10
	Apollo E-scooter	1	
	E-Bike	1	
	Mobile phone	1	
	Not Stated	2	
	Tesla car	1	
	Warehouse	1	
2024	Cargo ship	1	0
	None	0	
Total			26

Fires caused by Lithium ion batteries attended by ECFRS - 2019 to 2024 (till present day)

Year	Number of incidents
2019	3
2020	2
2021	3
2022	8
2023	10
2024	0
Total	26

Fires caused by Lithium ion batteries attended by ECFRS - by number of related injuries or fatalities - 2019 to 2024 (till present day)			
Year	Any related injuries or fatalities (if victim involved)	Number of incidents	Number of incidents by year
2019	Victim not involved	3	3
2020	Victim not involved	2	2
2021	Fatal	1	3
	Victim not involved	2	
2022	Injury (incl. rescue with injury)	1	8
	Victim not involved	7	
2023	Injury (incl. rescue with injury)	1	10
	Rescued (rescue without injury)	2	
	Victim not involved	7	
2024	None	0	0
Total			26
